

## Press Release – March 2026

### AVA becomes Exclusive Distribution Partner for MODU ONE® in Germany

AVA Alms GmbH announces its exclusive distribution partnership for the MODU ONE® ecosystem of Danish manufacturer MODU Valves A/S in Germany. With this agreement as sole market partner, AVA Alms strengthens its leading position in the segment of technically advanced industrial valves and expands its portfolio to include the first fully modular valve system on the market.

#### Exclusive Partnership for the German Market

As exclusive distribution partner, AVA Alms will be responsible for sales and technical consulting for the entire MODU ONE® product range in Germany – from modular valves and actuators to digital lifecycle tools such as the MODU Cloud™.

*“The partnership with MODU Valves is a significant milestone for our company and a strong signal to the market,”* emphasizes Frank Alms, Managing Director of AVA Alms GmbH. “MODU ONE® stands for innovation, traceability, and the highest manufacturing quality – making the system a perfect fit for our product and service portfolio.”

#### Technological Partnership Between Two Family-Owned Companies

Both partners are united by an engineering-driven DNA and a long-term strategic approach to their corporate goals.

“With AVA Alms, we have found a partner who shares our values, our commitment to quality, and our technological ambition,” says Henrik Svendsen, Founder and CEO of MODU Valves A/S. “Together, we will drive the modernization of industrial valves in Germany.”

MODU Valves brings forward-looking innovations to the partnership, including:

- **MODU ONE® A10** – three-piece stainless steel ball valves, DN8–DN100
- **MODU ONE® B10** – three-piece soft-seated stainless steel check valves, DN8–DN100
- **MODU Safe Mounting™** – an advanced stem design with an integrated mounting function for error-free actuator installation
- **MODU Multi Purpose Port™** – an integrated connection point for more than eight piping components or accessories
- **MODU Cloud™** – a modern digital solution designed to simplify time-consuming documentation in regulated industries

### **Added Value for German Industrial Customers**

Through the exclusive partnership, customers in Germany benefit from:

- Immediate access to the complete MODU ONE<sup>®</sup> ecosystem
- Technical consulting and support provided by an experienced, locally based team
- Digital traceability via the MODU Cloud™ – ideal for regulated industries

### **About MODU Valves A/S**

MODU Valves A/S is a Danish technology partner in the field of industrial valves. With MODU ONE<sup>®</sup>, the company has developed the world's first modular valve ecosystem combined with software. Based on modular design, full traceability, and maximum technical performance, MODU ONE<sup>®</sup> sets a new standard for how industrial valves are specified, installed, and maintained.
